

## Why ICY DOCK EZConvert SSD Mounting Adapters?

In 2008, we released the world's first 2.5" to 3.5" SSD/HDD mounting adapter to provide our customers the ability to use their 2.5" SSD/HDD in their 3.5" HDD systems. As SSD technology became more popular and more affordable, we constantly strived to continue improving our EZConvert series to meet today's standards, such as 7mm to 15mm drive height support and SAS 3.0 support while keeping the physical dimensions, mounting holes and connections the same as standard 3.5" SATA hard drives.

Utilizing a SSD can greatly enhance system performance and is truly the future in the data storage industry. With our SSD mounting adapters, system builders can help their client quickly and easily upgrade the legacy 3.5" hard disk drive to a 2.5" solid-state-disk drive without changing the entire system. Our USA patented tool-less drive installation design allows users to install or remove drives from the adapter, without removing the adapter from the chassis or drive caddy, making system maintenance easy and reducing service or labor costs.

## What Makes EZConvert Special?

**2.5" to 3.5" SSD/HDD Mounting Adapter Comparison Chart**

					
Product	EZConvert MB882SP-1S-1B	Competitor's adapter	Competitor's adapter	Competitor's adapter	Competitor's adapter
Tool-Less Drive Installation	✓				✓
Fully Enclosed Design	✓				✓
Supports 15mm height Drive	✓		✓	✓	
Fit's 3.5" drive caddy	✓	✓	✓	✓	✓
Swap drive without remove the adapter from drive caddy	✓				
Full metal design	MB382/482/982 Series		✓	✓	
Dual Drive + RAID 0/1 function	MB982SPR-2S R1				
Supports SAS 3.0	MB982IP-1S-1				
3-year warranty	✓				

ICY DOCK EZconvert series 2.5" to 3.5" SSD mounting adapters set themselves apart from other competitors by having various advanced features that greatly enhance user's experience such as tool-less drive installation, full drive height support, hot-swap drives within the drive caddy, hardware RAID functionality, and SAS 3.0 compatibility.

## Approved and used by first tier companies

ICY DOCK EZconvert SSD adapters earns their reputation from many first tier companies who values ICY DOCK's product quality, three year warranty, long product life, and professionally trained worldwide customer support.

## EZConvert Series Highlights

### EZConvert MB882 Series

**DRIVE HEIGHT SUPPORT**

- 15mm
- 12.5mm
- 9.5mm
- 7mm

Auto drive engaging design for easy drive installation and multiple air vents for increased air circulation

### EZConvert Air MB382/MB482 Series

**DRIVE HEIGHT SUPPORT**

- 15mm
- 12.5mm
- 9.5mm
- 7mm

Flexible drive stabilizing arm for all drive height compatibility and completely opened top on a metal chassis for maximum cooling performance

### EZConvert Pro MB982 Series

**DRIVE HEIGHT SUPPORT**

- 15mm
- 12.5mm
- 9.5mm
- 7mm

Full metal design for rugged/enterprise integration with complete covered designed for maximum drive protection

## Sample Applications for EZ-Convert Series

### EZConvert Pro MB982IP – 2.5" to 3.5" SAS 3.0 HDD conversion

### EZConvert Air Lite MB482SP – 2.5" to 3.5" SATA HDD/SSD conversion

### EZConvert MB882SP-1S-1B – 2.5" to 3.5" SATA SSD conversion

### EZConvert Air MB382SP – 2.5" to 3.5" SATA HDD/SSD conversion

## Key Product Features:

- Converts any standard 2.5" SAS or SATA SSD & HDD to a 3.5" SAS or SATA hard drive
- Support latest 2.5" SAS or SATA SSD & HDD from 7mm to 15mm
- Support SATA 6Gbps or SAS 3.0 with no speed reduction (*varies by model listed above*)
- USA Patented tool-less design for quick & easy drive installation and maintenance
- Compatible with any standard 3.5" SAS or SATA drive bay, backplane, enclosure, and mobile rack
- Approved & used by tier one companies such as HP, Intel and Google
- Manufacturer direct support - provided by ICY DOCK
- Covered by 3 year warranty with global customer support
- Stainless steel body with open air design for rapid heat dissipation (*EZConvert Air / EZConvert Air Lite series*)
- Full metal construction from the inside out, perfect for rugged applications and compliant to flammability requirements (*\*EZConvert Pro series*)
